O/vb

January 16, 1923.

My dear Mrs. Doss:

Your letter of January 13th inquiring if the photograph of your son and the biographical data which you were asked to supply this Department were received. I beg to say that they came in due course of mail and have been carefully filed withbthe other Gold Star material which we are collecting.

I regret very much that we have been delayed in completing the work on account of so many people having failed to send us in the material as requested. I will take the best of care of the picture of your son and when the book is brought out either by this Department or any work of a like character by the Adjutant General's Department you will be supplied with a complimentary copy. I will of course return to you the picture of your son as soon as I have finished using it. In the meantime please know that it is being safely kept and is subject to your call if you are not willing to leave it here. I know how highly you prize such a treasure and I would not for the world let anything happen to it.

Dordially yours,

Director.

Mrs. Frances Doss,
1013-12th St.,
Tuscaloosa, Ala.
