— Duplicate Book — & page 2 of this book

In examining this book some difficulty may be found in getting all the names belonging to the second Precinct. This may be avoided by referring to the "Additional List" on the 1st page and such names as are not upon that list will be found in the supplemental list at the end of the regular list of voters of said Precinct.

This irregularity was caused by the partial making up of the book before Registration was completed and the spaces though considerable, were not large enough to contain the additional names required at the County Seat in the last three days.
