Historical and Political Context of Municipalities

“In Alabama, as nearly everywhere else in the United States, cities [have] . . . come from the growth and expansion of villages,” or else arisen due to “proximity to natural resources, particularly mineral wealth or transportation facilities” (Owen, vol. I, p. 264). Birmingham, Decatur, and Mobile all offer good illustrations of the latter point. Municipal governments originated well before statehood: Mobile, for instance, was founded in 1702. Nevertheless, urbanization came slowly to the state. In 1850, only “28 towns in Alabama [had] a population of more than 200.” Even by 1900, a mere “17.7% of the . . . population lived in incorporated towns.” Modern Alabama contains about 450 towns and cities, although nearly half boast fewer than 1,000 residents. Under the Code of Alabama 1975, Section 11-40-6, all municipalities with over 2,000 inhabitants are cities; those with under 2,000 inhabitants are towns. The Code also establishes eight classes of municipalities (Section 11-40-12), based on population figures from the 1970 census. However, the classes are misleading, as no Class 1 municipality has existed since Birmingham’s official population fell below 300,000, and the overwhelming majority of towns and cities are in Classes 6 through 8.

From a political standpoint, “municipal corporations are bodies politic and corporate, established by law, to share in the civil government of the county, but chiefly to regulate and administer the local or internal affairs of the city, town, or district which is incorporated” (*Dillard v. Webb*, 55 Ala. 468 [1876]), quoted under the Code of Alabama 1975, Section 11-40-1. As a body politic, a municipality derives its power from the state and acts as an arm of the state legislature, exercising delegated legislative powers for the welfare and protection of all citizens. It cannot, however, “legislate beyond what the state has either expressly or impliedly [*sic*] authorized” (*City Council v. Foster*, 133 Ala. 587, 32 So. 610 [1902], *op. cit.*). As a body corporate, a municipality exercises ministerial powers: it may (for example) acquire property, collect revenue, regulate

commerce, and maintain public order for the benefit of the corporation as a whole. Despite their great diversity in age, size, and organizational complexity, all municipalities serve as agents of the state and county, provide services to citizens, protect the quality of life, safeguard the environment, and establish the direction of their future development and growth.

Agency Organization

Under Title 11, Chapters 43, 43A-D, 44, and 44A-F, the Code of Alabama permits several possible methods of municipal political organization. (The works by Martin and Thomas & Stewart, cited above, are the source of all quotations.)

Mayor-Council. This form of government is by far the most widespread. “The mayor is the formal head of the municipal government and the chief executive officer,” with “broad powers of supervision over the administration of municipal programs” and finance, although the council shares appointive powers and retains full responsibility for legislation. The mayor’s role varies depending on whether a municipality has more, or fewer, than 12,000 inhabitants. In the towns and smaller cities, “the mayor sits with the council, presides over its meetings, and has a discretionary vote,” but lacks the veto power. In larger cities, the council sits alone and the mayor may veto its ordinances, subject to being overridden by a 2/3 vote. A number of mayor-council municipalities employ a city administrator, who performs specified administrative duties on behalf of the mayor and council but has less autonomy than a city manager (see below).

Council-Manager. This form of municipal government is set forth in Title 11, Chapter 43A of the Code of Alabama 1975. A manager is “employed by the council to supervise administration,” with the mayor acting only as “ceremonial head of the city” and having no administrative duties other than presiding over council meetings. The council retains full legislative power and the right to establish municipal departments. The manager is entrusted with enforcing laws and ordinances, appointing and supervising most employees (excluding board members and merit system employees) without intervention by the mayor or council, preparing the annual budget, administering finances, and reporting to the council. As under the mayor-council system, the municipality may employ a clerk and a treasurer, or the manager may perform their duties. Although appointed for an indefinite term, the manager may be removed at any time by a 2/3 vote of the council. Currently, only five Alabama cities (Anniston, Auburn, Phenix City, Talladega, and Tuskegee) use this form of government. Anniston and Phenix City do so under local legislation.

Mayor-Commission-Manager. Uniquely, the City of Dothan combines all three of the other forms described. Special legislation authorizing this arrangement is found under the Code of Alabama 1975, Section 11-44E [1988].

Commission. Under this plan, which formerly was common in large Alabama cities, municipal executive and legislative powers were concentrated in the hands of three commissioners elected by the city as a whole. Each commissioner headed one of three municipal “departments” which aggregated the city’s many functions. One commissioner acted ceremonially as mayor. This form of organization is now extinct in Alabama.

Municipal Functions and Subfunctions

The functions of municipal governments are inherent in their legislative mandate, found under Title 11 of the Code of Alabama 1975. Each municipality is virtually a microcosm of state government, carrying out within its corporate limits all the functions that multiple state agencies perform statewide. The duties of “core” municipal agencies—councils, mayors, city managers or clerks, and “service” departments (e.g., street departments, utility departments, zoning boards)—fall under the Policy and Statute Development, Public Services, Economic and Community Development, Regulation, Law Enforcement/Emergency Powers, and Administrative Support Operations functions identified for Alabama local government. Other municipal agencies may perform specialized activities under Public Services (housing authorities, boards of education, hospitals, libraries), Stewardship (archives and museums), or Law Enforcement (police departments). However, because they are not “core” municipal agencies (and may, in fact, be either county or municipal), disposition for their records will be provided in separate RDAs. Municipal courts (Law Enforcement) are part of the state court system and are therefore not included in this RDA.

This functional analysis is written from the standpoint of mayor-council municipalities. Although such functions as Policy and Statute Development, Economic and Community Development, and Regulation may be carried out rather differently in council-manager municipalities, this fact makes little difference in the records they create.

In the performance of their mandated functions, municipalities may engage in the following subfunctions:

Policy and Statute Development

Making and Implementing Policy. This subfunction relates to drafting, promulgating, and implementing ordinances, resolutions, and other municipal policy statements, as authorized by the Code of Alabama 1975, Section 11-45-1. Department heads and attorneys assist the mayor and council in drafting the budget and other legislation. The council promulgates ordinances and resolutions during open meetings, where public debate may influence final action. Unincorporated municipal boards and commissions advise the council on policy development in areas under their jurisdiction; separately incorporated boards enjoy considerable autonomy. The municipal clerk records, certifies, and codifies approved council legislation and sends it to the mayor for signature. Ordinances must be published in a local newspaper, if available, or posted in three public places. The mayor (or, in a council-manager municipality, the city manager) is responsible for implementing and enforcing legislation, although this activity is normally carried out through the municipal departments.

Authorizing Revenue Collection. Like counties, towns and cities are delegated powers of taxation by the state. Title 11, Chapter 51 of the Code of Alabama authorizes the collection of municipal revenue through business and occupational licensing; gross receipts or sales tax; *ad valorem* taxes; and taxes on lodging, rentals, and such commodities as wine, beer, liquor, and gasoline. The council passes the necessary ordinances and allocates the resulting funds to meet

departmental expenditures and the interest on bonds and other indebtedness. All expenditures must fall within the annual budget. Processes involved in actual revenue collection are covered under Regulation (licensing) and the financial management subfunction of Administrative Support Operations (taxation).

Managing Elections. In Title 11, Chapter 46, the Code of Alabama prescribes the duties of the mayor and clerk in providing ballots and supplies for municipal elections; preparing, certifying, and publishing poll lists; canvassing returns; handling absentee ballots; deciding contested elections; and filing a copy of each certificate of election with the county probate judge.

Public Services

Building and Maintaining Streets, and Bridges, and Other Municipal Constructions.

Except by special arrangement with the county, a town or city is responsible for streets within its corporate limits. Alabama courts have generally construed the Code of Alabama 1975, Section 11-47-90, as imposing a positive duty upon municipalities to maintain streets in safe condition. The street departments of most larger towns and cities therefore construct and repair streets and bridges, put up traffic signs and lights, mow grass along public rights-of-way, and otherwise make travel easier for citizens. Heavy work, such as resurfacing, may be performed by private contractors. Some activities related to this and other Public Services subfunctions (inspections, nuisance abatement) will be covered under Regulation. In this edition of the RDA, this subfunction is broadened to include the records of other municipal construction projects (excluding municipal administrative buildings), such as parks, archives or museums, and parking lots or garages.

Providing Public Transportation Systems and Facilities. This subfunction pertains to the operation and maintenance of airports, bus lines, parking garages, and other public transportation services or facilities that a municipality may provide for citizens. The operation of some facilities, such as airports, may be subject to state and federal requirements.

Providing Utility and Sanitation Services. In return for fees, municipalities may provide power, water, sewage, garbage and trash collection, and landfill services to residents, either directly or by contracting (through an ordinance) with private service vendors. They administer these operations through either a municipal department or an incorporated or unincorporated board. The Alabama Department of Environmental Management (ADEM) regulates municipal water departments and sanitary landfills, establishing retention requirements for some records they create.

Providing Social and Recreational Opportunities. Under Alabama law, towns or cities may establish parks and recreation boards to oversee social and recreational developments. This subfunction covers all activities pertaining to operating such facilities as municipal community or recreational centers, parks, zoos, ball fields, and skating rinks. Facilities that safeguard and provide access to historical or cultural collections—such as archives and museums—are treated in a separate RDA_s, as are local racing commissions. (These RDAs are available on the ADAH website at: <http://www.archives.alabama.gov/officials/rdas/local/archmusRDA.pdf> and

[http://www.archives.alabama.gov/officials/rdas/local/Race rda.\pdf](http://www.archives.alabama.gov/officials/rdas/local/Race%20rdas.pdf), respectively.) Civic centers, which often provide a location for recreational events, are covered below under Economic and Community Development.

Providing Senior Services. Municipalities may provide services to their senior citizens, either in cooperation with area councils on aging or independently. Such services (sometimes conducted through local non-profit agencies, volunteers, or vendors) may include: operating senior centers that provide meals, health and welfare programs, and recreational and social opportunities; providing transportation services; supporting senior citizen discount programs; providing counseling, case work, referrals, and other social services; offering home health care through the Medicaid Waiver Program; providing in-home services, such as house cleaning and escorted shopping; employing federal funds to provide job or volunteer opportunities; and investigating complaints about residential health care facilities.

Providing Public Cemeteries. This subfunction pertains to all activities pertaining to the operation and maintenance of municipal cemeteries, including: providing burial plots, interring bodies, and maintaining grave sites and cemetery grounds.

Economic and Community Development

Planning and Improving Community Development. All municipalities, regardless of size, are authorized to create planning commissions under the Code of Alabama 1975, Section 11-52-1, *et. seq.* This subfunction also entails evaluating the effects of economic growth so that the municipality's physical environment, services, and quality of life can keep pace with its development. City planning commissions, and other boards or commissions covered by this subfunction (such as architectural review boards), cooperate with other municipal departments and boards, the mayor, and the city council in their work.

Recruiting Business and Industry. The object of this subfunction is to attract new business ventures to the municipality. Towns and cities may cooperate with regional planning commissions and non-government agencies, such as chambers of commerce and tourism councils, in promoting municipal resources to potential businesses and residents. They may operate civic centers and industrial parks as sites to attract business conferences and industrial development.

Obtaining Financial Assistance. The Alabama Department of Economic and Community Affairs (ADECA) and various other state agencies are charged with the responsibility of soliciting state and federal grant funds for local economic and community development. Counties and municipalities work primarily through one of twelve regional planning commissions that undertake comprehensive advisory planning for their region and act as intermediaries in receiving and disbursing federal, state, and private grant funds for various local programs.

Regulation

Licensing and Permitting. Numerous activities require municipal licenses or permits, which serve both to regulate and as a source of revenue. Depending on a town or city's size and

structure, business and occupational licenses (authorized by the Code of Alabama 1975, Sections 11-51-90 through 11-51-91) may be issued either by the clerk's office or by a separate department. A municipal council may, by ordinance, award franchises for certain services, such as taxicab or cable television companies (Section 220 of the Constitution of Alabama of 1901). Subject to state ABC Board regulation, the council also approves liquor licenses and decides the hours in which alcoholic beverages may be sold. It may also rescind the licenses of businesses found to be in violation of municipal codes or ordinances.

Inspecting. As an essential safeguard of the public interest, inspection is a pervasive element of Regulation. Inspections in such areas as public health and housing may be performed by agencies outside the "core" municipality. Municipal building, street, or engineering departments monitor compliance with codes during construction projects and also license contractors, subcontractors, and suppliers. Under Sections 36-19-4 and 36-19-11, the city fire marshal is responsible for inspections to enforce the fire code.

Zoning and Regulating Subdivisions. In 1923, the legislature gave municipalities the power to zone all territories within their corporate limits (Code of Alabama 1975, Section 11-52-70). This power is enacted through a zoning ordinance dividing the municipality into districts, or zones (based on their suitability for certain uses); and regulates the construction, renovation, and use of buildings and land therein accordingly. Municipal planning commissions may hear requests for developing subdivisions and rezoning property. Municipal zoning boards of adjustment interpret zoning ordinances and hear requests for variances. Adverse decisions of the zoning board of adjustment may be appealed to the circuit court.

Abating Nuisances. Alabama law gives municipalities broad authority "to abate all nuisances and to assess the cost against the person" responsible for them. Towns and cities may pass ordinances against unvaccinated or loose animals (Section 11-47-110; see also information under Title 3), weeds growing on neglected or abandoned property (Section 11-47-140), or junk collections that fall outside the parameters allowed for licensed junkyards (Sections 23-1-240 through -251). The municipality's power to issue fines and rescind licenses provides leverage in eliminating noisy, offensive, or dangerous activity at "honky tonks" and similar establishments. If a nuisance violation remains uncorrected, the town or city may take action in the courts.

Law Enforcement and Emergency Powers

Maintaining Public Order. Under the Code of Alabama 1975, the mayor and council may take reasonable precautions against disruptions of the peace, usually by issuing ordinances, resolutions, or proclamations. Besides recruiting a police force, the mayor and council may establish curfew ordinances (Section 11-45-1), refuse to license potentially dangerous places of amusement (Section 11-51-102), require permits for parades and demonstrations, issue proclamations closing places that sell arms if a disturbance threatens (Section 11-43-83), and ask the governor to call out the National Guard in time of riot (Section 31-2-111).

Managing Emergencies. This subfunction relates to preparing and carrying out emergency responses in time of disaster. The Alabama Emergency Management Act of 1955 (Code of Alabama 1975, Sections 31-9-2 through 31-9-10) created a state and various local emergency

management agencies. In most jurisdictions, cities take part in a county-wide disaster recovery organization. The state and local EMAs, along with the International City/County Management Association (ICMA) and the Federal Emergency Management Agency (FEMA), offer several kinds of emergency management assistance. They make recommendations on disaster planning; administer state and federal matching grants; provide training in risk evaluation and damage assessment; an—in case of disaster—distribute relief funds; establish control centers; and coordinate responses at the local, state, and federal levels.

Maintaining Incarceration Facilities. All municipalities have the power to establish jails and prisons (Code of Alabama 1975, Sections 11-47-7 through 11-47-8). Alternatively, under Section 11-80-3, the mayor of a town or city may contract with the county to use one of its jails. For municipal jails, the city council must provide adequate janitorial service for prisoners, and twice annually “shall thoroughly fumigate and cleanse the jails” (Sections 14-6-92 through 14-6-93). The State Department of Corrections inspects the jails, also twice annually. Its recommendations are to be published in a local newspaper at the council’s expense (Sections 14-6-82 and 14-6-91).

Administrative Support Operations

Financial Management—Taxing/Collecting and Disbursing Revenue. As noted, council ordinances provide for the collection of gross receipts, sales, and other taxes to support municipal administration. The Alabama Revenue Department collects and audits sales and use taxes for many cities, remitting them on a bi-monthly schedule. A few cities, such as Selma, collect their own *ad valorem* taxes; elsewhere, the task is performed by county tax collectors. However, towns and cities have a role in selecting members of their county’s board of equalization (Code of Alabama 1975, Section 40-3-2). Municipal finance divisions enforce the tax code, audit tax returns on taxes collected by the town or city, investigate fraud, and maintain records of taxation and licensing activities. Municipal attorneys handle the litigation of taxation cases, when required. This subfunctions also covers disbursing revenue in the form of grants or awards to non-profit agencies within the municipality’s corporate limits.

Administering Internal Operations. A significant portion of municipal government work includes general administrative, financial, and personnel activities performed to support the municipality’s programmatic areas. These activities include:

Managing the agency. Activities include internal office management activities common to most government agencies, such as corresponding and communicating, scheduling; meeting; documenting policy and procedures; reporting; drafting promoting, or tracking legislation; publicizing and providing information, managing records; and managing information systems technology.

Managing finances. Activities include budgeting (preparing and reviewing a budget package, submitting the budget package to the council, documenting amendments and performance of the budget, and reporting on established budget categories); purchasing (requisitioning and purchasing supplies and equipment, receipting and invoicing for goods, accounting for expenditures, and authorizing payment for products received); accounting for the expenditure, encumbrance, disbursement, and reconciliation of funds

within the agency's budget through a uniform system of accounting and reporting; authorizing travel; contracting with companies or individuals; bidding for products and services; assisting in the audit process; investing; and issuing bonds.

Managing human resources. Activities include recruiting and hiring eligible individuals to fill positions within the agency; providing compensation to employees; providing benefits such as leave, health insurance, unemployment compensation, worker's compensation, injury compensation, retirement, and death benefits; supervising employees by evaluating performance, promoting, granting leave, and monitoring the accumulation of leave; training and providing continuing education for employees; and disciplining.

Managing properties, facilities, and resources. Activities include: inventorying and accounting for non-consumable property and reporting property information to the appropriate authority; constructing buildings and facilities, leasing and/or renting offices or facilities; providing security for property owned by the agency; insuring property; and assigning, inspecting and maintaining agency property, including vehicles.

Analysis Of Record-Keeping Systems and Records Appraisal of Municipalities

Agency Record-Keeping Systems

Alabama's municipalities usually operate hybrid record-keeping systems composed of paper, microforms, and electronic records. Nearly everywhere, records are created electronically but maintained primarily in paper format. Records are often stored on-site in office space or storage vaults, with occasional off-site back-up of microfilmed or computerized records. Most towns and cities lack the environment, space, and financial resources needed for optimum preservation of their public records. Nevertheless, about a quarter of Alabama's municipalities (including most of the large and middle-sized ones) employ regular destruction cycles, alternative storage media, records centers, and even archives as well-integrated components of a sophisticated records management programs.

Records Appraisal

The following is a discussion of the two major categories of records created and/or maintained by Alabama municipalities: Temporary Records and Permanent Records.

I. Temporary Records. Temporary records should be held for what is considered to be their active life and disposed of once all fiscal, legal, and administrative requirements have been met. Records discussed here have been added, or revised in disposition, since the last revision of the RDA.

Facilities/Buildings Security Records (20.12). These records document the municipality's efforts to provide security to members of the public using its buildings and facilities, as well as to monitor the admission of staff and visitors to these areas. They may include visitors' logs or sign-in sheets, staff swipe card logs, alarm system logs, recordings of security monitoring or response, and any other records documenting security staff's response to alarms or emergencies. In this edition of the RDA, retention requirements are lengthened to six months for security recordings that do not become part of a case file, in compliance with recently approved requirements for such recordings held by other local government jurisdictions.

II. Permanent Records. The Government Records Division recommends the following records as permanent:

Making and Implementing Policy

Municipal Incorporation Records (1.01). Municipalities derive their power to promulgate local legislation from their status as incorporated bodies. Petitions for the incorporation of a town or city, and its original charter of incorporation, are filed in the county probate office for permanent retention (Code of Alabama 1975, Section 11-41-4). In some cases, however, the

probate office's copy of the charter has been lost or cannot be located. The historical importance of original articles of municipal incorporation warrants the permanent retention of these records by the municipality itself, either in the clerk's office or in a local library, archives, or historical society under the terms of a local government records depository agreement.

Administrative Correspondence (1.02). This correspondence documents the formulation of policy or rule-making decisions by the mayor, council, and department heads. It may reflect the influence of citizens on policy development; include statistics, technical information and reports of long-term administrative value; and document planning activities conducted by municipal governments and allied agencies, such as state or federal authorities or the area's regional planning commission.

Records of Municipal Councils, Boards, Commissions, and Authorities—Meeting/ hearing minutes, agendas, and packets (1.03a). The Code of Alabama 1975, Section 36-25A-4, stipulates that a municipality must document the proceedings of all meetings held by municipal officials. These records include minutes of the council and all municipal boards, commissions, committees (including council committees), and authorities, as well as those of incorporated boards that service the municipality. Besides minutes, they include one copy of the meeting/ hearing agendas and packet materials reviewed by members (copies of budgets, work plans, and other background information) prior to meeting. Minutes of individual boards and authorities are not individually appraised; they are listed (with individual numbers), under the appropriate sub-functions, along with the program records of these agencies. Normally, approved policy recommendations by municipal boards, commissions, and authorities are codified in council ordinances. Meeting minutes and related records are essential to document the evolution of municipal policy and procedures. Under the provisions of the Code of Alabama 1975, Section 36-25A-2, work sessions of municipal councils, boards, commissions, and authorities are defined as open meetings. A note has therefore been added to this schedule stating that minutes and related records of work sessions are included in the disposition.

Ordinances (1.05a). Council ordinances are a municipality's primary legislative record and provide the basis for budgeting, licensing, code enforcement, nuisance abatement, and similar activities. They are essential for documenting policy development and are appraised as permanent.

Codified Ordinance Books (1.05b). Periodically, a municipality may codify its ordinances by having them checked for legal compatibility with such sources as the Code of Alabama, the Alabama Administrative Code, and applicable federal rules and regulations. Normally, professional codification companies perform this service for a fee. Once the research is complete, the approved ordinances are published as a book, which the municipality maintains as a permanent record.

Administrative Codes and Regulations (1.05c). While codes in such areas as housing or sanitation may be based on state and federal requirements, they arise from a municipality's inherent right (see Code of Alabama 1975, Section 11-40-1) "to regulate and administer" its own affairs. Departmental codes and regulations originate as council ordinances and are therefore listed under Policy and Statute Development in the RDA. However, they primarily document the Regulatory

activities of municipal departments. Although permanent records, codes and regulations may be amended or rescinded by passing a new ordinance.

Resolutions (1.06). Resolutions document council legislation that generally concerns “one-time” municipal events rather than ongoing policy decisions. (For example, the council’s rules of procedure are normally embodied in a resolution.) Like ordinances, resolutions are essential for documenting policy development and are appraised as permanent.

Proclamations (1.07). Mayoral proclamations, like council resolutions, generally document policy statements or official pronouncements on “one-time” municipal events. They are also appraised as permanent.

Citizen Petitions (1.08). Citizens may petition the council or municipal departments on a variety of public issues, such as annexation of outlying areas, provision of municipal services, property assessment or rezoning, or nuisance abatement through license revocation. These records document the impact of citizen opinion on policy development and therefore have important evidentiary value. They do not pertain to matters specifically regulated by the Code of Alabama, such as municipal incorporation, consolidation, or dissolution; or matters that require the holding of a special municipal election.

Authorizing Revenue Collection

Permanent documentation of this subfunction is found in council resolutions authorizing revenue collection. The actual collection of revenue is permanently documented in municipal audit reports, listed under the Administering Internal Operations subfunction, and in records maintained by county taxation officials.

Managing Elections

Maps of Municipal Council Districts (2.02). These maps document the boundaries of each municipal council member’s electoral district. Although used primarily for municipal elections, - collectively they help to document the city or town’s changing geography, demography, and voting patterns over time. Therefore, their historical value warrants permanent retention.

Building and Maintaining Streets and Bridges

Right-of-Way Deeds, Maps, and Drawings (3.01). As they document the municipality’s ownership of right-of-way over lands on which roads and bridges are constructed, these records have permanent legal and historical value. They contain a legal description and diagram of the right-of-way, and the land’s location. A copy of the deed is kept on file at the county probate office.

Aerial Photographs (3.02). These records provide a photographic record of the municipality’s surface characteristics. Aerial views of streets, bridges, bodies of water, and other structures and topography are recorded in photographs that are used in planning, economic development, regulation, and other core functions of municipal government.

Street Project Plans, Specification, Maps, Plats, and Photographs (3.04). These records provide comprehensive documentation of the construction and improvement of municipal streets. Information available includes overall project plans and specifications, photographs, and maps or drawings. Because they have historical interest and provide primary documentation of an important municipal subfunction, overall project plans, specifications, maps, and plats are appraised as permanent.

Bridge Project Plans, Specifications, Maps, Plats, and Photographs (3.05). These records provide comprehensive documentation of the construction and improvement of municipal bridges. The plans or drawings document the bridge's location and structural details, materials used in construction, and flood levels. Information available in them includes overall project plans and specification, photographs, and maps or drawings. Although these records have no administrative utility beyond the life of the bridge, they may have permanent value in documenting bridges of significant historical interest.

Other Municipal Construction Project Plans, Specifications, Maps, Plats, and Photographs (3.06). These records provide core documentation of the construction and improvement of various municipal constructions that are not streets, bridges, or municipal administrative buildings (parks, cemeteries, parking lots or garages, archives or museums, etc.). Plans or drawings document the facility's location and structural details, as well as materials used in construction. Information in these records may include overall project plans and specifications, photographs, and maps or drawings. Permanent retention is again assigned to constructions of significant historical interest.

Providing Public Transportation Systems and Facilities

Airport Maps, Plans, and Blueprints (4.04). Like maps, plans, and blueprints for other municipal buildings and facilities, these records are appraised as permanent for their evidentiary and historical value. Master vs. "as-built" plans show any differences between projected and completed airport construction or improvement that might affect the safety and efficiency of airport operations. Layouts are continually updated to reflect changes that may influence the airport's technical performance.

Providing Utility and Sanitation Services

Utility System Maps, Plans, Profiles, and Photographs (5.02). These records include maps, profiles, plans, and photographs of sewer systems, water reservoirs, and other utility constructions operated by the county or its service vendors. Under Title 11, Chapter 50 of the Code of Alabama 1975, such records shall be available for inspection by the affected property owners. However, the proposed disposition allows the eventual destruction of records for systems or reservoirs not actually leased or purchased by the county, once the potential for litigation has expired.

Annual Water Quality Reports (5.08k). These are "reports pertaining to the quality of water or operation of [a municipality's] water supply system." They are required under the federal Safe

Drinking Water Act of 1974, as amended in 1986 and 1996, and now codified under Title 42 CFR. Under the Alabama Administrative Code, Chapter 335-7-10.05(h), copies of the report “shall be furnished to [ADEM] upon request and must be available for review by the public.” The Montgomery Water Works and Sanitary Sewer Board’s reports (which are published and appear on the board’s website) contain “information about the source of [Montgomery’s] water and the process used to purify it,” as well as tables of annual laboratory test results, public health information, and tips on maintaining home sewer systems. The records provide excellent summary documentation of municipal water works’ services to citizens and compliance with state and federal regulations. They are therefore appraised as permanent.

Providing Social and Recreational Opportunities

Permanent records documenting this subfunction include council ordinances authorizing municipal community or recreational centers, parks, zoos, ball fields, skating rinks, or other recreational facilities; minutes of boards or authorities established to oversee their operation; and general ledgers or audit reports that record financial transactions.

Providing Senior Services

Senior Citizen Program Records (7.01-7.13). Municipalities may operate senior centers or provide other services to senior citizens, either in cooperation with area councils on aging or independently. Retention periods for records in this section comply with minimum requirements for area councils on aging in the Alabama Administrative Code, Chapter 70-X-12-.02. Based on federal requirements, they may differ in some instances from retention periods for similar records elsewhere in the RDA. Only Area Plans (7.01) are appraised as permanent. The retention period for Medicaid Waiver Case Management Client Files (7.08) complies with a Medicaid directive. The revised retention for Senior AIDES Program files (7.09) is based on a directive from the National Senior Citizens Education and Research Center, the federal agency that oversees the Senior AIDES Program.

Providing Public Cemeteries

Sexton’s (Cemetery) Records (8.02). The sexton is the cemetery’s manager, issues permits and/or orders for internment for all burials within the city limits, maintains information on all bodies buried on municipal cemetery grounds, and maintains cemetery property. Permanent records include: cemetery maps (showing each burial site by lot, square, and section, as well as cemetery plats and photographs); records of internment, providing personal information on the occupants of burial sites; affidavits of ownership, documenting the purchase and ownership of individual cemetery plots (deeds to plots may be, but are not always, filed in the county probate office); and logs of cemetery visitors. Because of their historical and genealogical importance, these records are appraised as permanent.

Planning and Improving Community Development

Flood Insurance Rate Maps (9.03). These maps (FIRMs) are provided to municipalities by the Federal Emergency Management Agency (FEMA). They show insurance rates, based on the likelihood of flooding, for each piece of property located within municipal boundaries. The Alabama Department of Economic and Community Affairs (ADECA) acts as a liaison between localities and FEMA in incorporating flood prevention into civic planning. Each municipality must develop a flood prevention ordinance, based on the latest FEMA map, and keep the FIRM “on file and accessible [to] the public in perpetuity or until a new map is issued.” ADECA urges that outdated flood maps also be retained permanently. Besides demonstrating compliance with ADECA and FEMA regulations, they document a town or city’s cognizance of changing public safety issues in the process of municipal development. Because the maps are vital to all planning activities, they are placed here rather than under the subfunctions governing zoning or construction projects.

Recruiting Business and Industry

Besides the records mentioned above, minutes and administrative correspondence of industrial development boards provide permanent documentation of this subfunction. They are appraised under Making and Implementing Policy. Permanent documentation of civic center operations is found in council minutes, administrative correspondence, and financial management records listed under Administrative Support Operations.

Obtaining Financial Assistance

Permanent documentation of this subfunction is found in records listed under the Administrative Support Operations function, such as audit reports and grant final reports. It may also be reflected in planning commission or council minutes and administrative correspondence with regional planning commissions and state and federal authorities.

Licensing and Permitting

Annual List of Businesses Licensed to Operate in the Municipality (11.01). These records provides summary documentation of business activity in the municipality. Information available - includes business names, owners’ names, and street addresses. Although the creation of these records is not mandated by the Code, and not all municipalities create them, annual business listings have permanent historical and genealogical value where they do exist, as they provide a “snapshot” of business life in the community.

Inspecting

Permanent documentation of this subfunction will be found in statistics included with agencies’ annual reports and appropriation requests included with annual budget packages. In cases where repeated failure of inspections leads to license revocation, it will also be reflected in council minutes.

Zoning and Regulating Subdivisions

Subdivision Files—final plans, plats, maps, and photographs (13.04a); statements dedicating streets to the municipality; council resolutions (13.04b). Subdivision Files, final plans, plats, maps and photographs of subdivisions are appraised as permanent records, like most other plats, maps, and photographs. Statements dedicating streets to the municipality, and council resolutions assuming maintenance responsibility, are normally included with the council minutes.

Abating Nuisances

Permanent documentation of this subfunction will be found in council minutes and ordinances, as well as in municipal audit reports, listed under the Administering Internal Operations subfunction.

Maintaining Public Order/Managing Emergencies

Permanent documentation of this subfunction would be found in mayor proclamations or council ordinances that established curfews, declared martial law, or took other emergency management measures. These records are listed under Making and Implementing Policy.

Maintaining Incarceration Facilities

Permanent documentation of municipal jail administration (including contracts for facilities leased from the county) will be included in audit reports, listed under Administering Internal Operations. Operational records of jail administration are included in a separate RDA for law enforcement agencies.

Financial Management—Taxing/Collecting and Disbursing Revenue

Records Documenting Municipal Funding of Non-Profit Agencies (16.05). Municipalities may award funds annually or periodically to non-profit agencies within their corporate limits. Along with permanent, policy-related records establishing the program—ordinances, resolutions or other directives (16.05a) and guidelines and application forms for each funding cycle (16.05b)—other records involved in this process may include: contracts with funded agencies, non-profit agencies' verification of insurance coverage, agencies' funding implementation reports, related financial records, and final narrative reports from funded agencies (16.05g, also permanent). Disposition requirements for these records are based on, but not identical to, similar records elsewhere in the RDA (grant files, contracts, etc.)

Municipal Records Disposition Authority

This records disposition authority (RDA) is issued by the Local Government Records Commission under authority granted by the Code of Alabama 1975, Section 41-13-5 and 41-13-22 through -24. It was compiled by the Government Records Division, Alabama Department of Archives and History (ADAH), which serves as the commission's staff, in cooperation with representatives of municipal governments. The RDA lists records created and maintained by towns and cities in carrying out their mandated function and subfunctions. It establishes retention periods and disposition instructions for those records and provides the legal authority for municipalities to implement records destruction.

Alabama law requires public officials to create and maintain records that document the business of their office. These records must be protected from "mutilation, loss, or destruction," so that they may be transferred to an official's successors in office and made available to members of the public. Records must also be kept in accordance with auditing standards approved by the Examiners of Public Accounts (Code of Alabama 1975, Section 36-12-2, 36-12-4, and 41-5-23). For assistance in implementing this RDA, or for advice on records disposition or other records management concerns, contact the ADAH Government Services Division at (334)242-4452, or records@archives.alabama.gov.

Explanation of Records Requirements

This RDA supersedes any previous records disposition schedules or RDAs governing the retention of municipal records. Copies of superseded schedules, and previous versions of this RDA, are no longer valid and may not be used for records disposition.

This RDA establishes retention and disposition instructions for records of municipalities. It does not require the creation of any record not normally created in the conduct of municipal business, although the creation of certain records may be required by the municipality's administrative procedures, work responsibilities, audit requirements, or legislative mandates. Individual municipalities may not necessarily create all of the records listed below.

This RDA establishes retention and disposition instructions for records listed below, regardless of the medium on which those records may be kept. Electronic mail, for example, is a communications tool that may record permanent or temporary information. As for records in any other format, the retention periods for e-mail records are governed by the requirements of the subfunctions to which the records belong.

Certain other short-term records that do not materially document the work of an agency may be disposed of under this RDA. Such materials include: (1) duplicate record copies that do not require official action, so long as the creating office maintains the original record for the period required; and (2) transitory records, which are temporary records created for short-term, internal purposes and may include, but are not limited to: telephone call-back messages; drafts of ordinary documents not needed for their evidential value; copies of material sent for information purposes but not needed by the receiving office for future business; and internal communications

about social activities. They may be disposed of without documentation of destruction. Other items that may be disposed of without documentation of destruction include: (1) catalogs, trade journals, and other publications received that require no action and do not document activities; (2) stocks of blank stationery, blank forms, or other surplus printed materials that are not subject to audit and have become obsolete.

Any record created by the municipality prior to 1900 shall be regarded as permanent.

Records Disposition Requirements

This section of the RDA is arranged by subfunctions of municipalities and lists records created and/or maintained by municipal agencies in carrying out those subfunctions. Individual towns or cities may submit requests to add or revise specific records disposition requirements to the Local Government Records Commission for consideration as its regular quarterly meetings.

1. Making and Implementing Policy

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
1.01	Municipal Incorporation Records. These records include petitions for the incorporation of a town or city, and its original charter of incorporation. Municipal incorporation records are filed in the county probate office for permanent retention, but the legal and historical importance of these records warrants the retention of any copies by the municipality itself.	PERMANENT Retain in office or offer for transfer to a local archives, library, or historical society under the terms of a local government records deposit agreement.
1.02	Administrative Correspondence. This correspondence documents the formulation of policy or rule-making decisions by the mayor, council, department heads, and other municipal officials.	PERMANENT
1.03	Records of Municipal Councils, Boards, Commissions, and Authorities	

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
1.03	<p>a. Meeting/hearing minutes, agendas, and packets. These records document meetings of the council and all other boards, commissions, authorities, etc. involved with municipal activities. They include one copy of agendas and packet materials (copies of budgets, work plans, reports, and other project files or background information) reviewed by members prior to meetings.</p> <p><u>Note:</u> Under the provisions of the Code of Alabama 1975, Section 36-25A-2, work sessions of municipal councils, boards, commissions, and authorities are defined as open meetings. Minutes and related records of work sessions are therefore included in this disposition.</p> <p>b. Project file materials not included in meeting packets. These records consist of reports, forms, work plans, research data, correspondence, or financial records documenting projects, studies, surveys, or other information-gathering activities authorized by municipal councils, boards, commissions, and authorities that do not become part of a meeting packet.</p> <p>Financial records (bids, accounting records, etc.)</p> <p>All other records</p>	<p>PERMANENT</p> <p>See section 18 of the RDA.</p> <p>Retain for useful life. Review for historical significance before disposal.</p>
1.04	<p>Recordings of Meetings. Audio or video recordings provide a verbatim account of debate and public input at meetings of the municipal council and municipal boards, commissions, or similar bodies. They are normally used only as an aid to preparation of the minutes.</p>	<p>Retain until minutes are approved.</p>

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
1.05	Ordinances, Codes, and Regulations	
a.	Ordinances. Council ordinances are a municipality’s primary legislative records and provide the basis for budgeting, licensing, code enforcement, nuisance abatement, and similar activities.	PERMANENT
b.	Codified ordinance book. This book provides a printed compilation of municipal ordinances after a codification service has checked them for legal compatibility with such sources as the Code of Alabama, the Alabama Administrative Code, and applicable federal rules and regulations.	PERMANENT
c.	Administrative codes and regulations. Municipal codes and regulations originate as council ordinances and are administered by municipal departments. They are designed to regulate such activities as housing, zoning, and public health within the corporate limits.	PERMANENT
1.06	Resolutions. Resolutions document council legislation that generally concerns “one-time” municipal events rather than ongoing policy decisions. The council’s rules of procedure are normally embodied in a resolution.	PERMANENT
1.07	Proclamations. Mayoral proclamations, like council resolutions, generally document policy statements or official pronouncements on “one-time” municipal events.	PERMANENT
1.08	Citizen Petitions. Citizens may petition the council or municipal departments on a variety of public issues, such as annexation of outlying areas, provision of municipal services, property assessment or rezoning, or nuisance abatement through license revocation. These records document the impact of citizen opinion on policy development and therefore have important evidentiary value. They do not pertain to matters specifically regulated by the Code of Alabama, such as municipal incorporation, consolidation, or dissolution; or matters that require the holding of a special municipal election.	PERMANENT If petition is filed with council minutes or departmental administrative correspondence, duplicates may be destroyed.

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
1.09	Legislative Reference Files	
a.	Legislative tracking files. These records are created to track draft legislation. They include copies of draft legislation, statistics, names of legislative sponsors, roll call votes, position papers, and correspondence.	Retain for useful life.
b.	Code of Alabama	Retain in office until superseded; then offer to a local library, archives, or historical society.
c.	Acts of Alabama	Retain in office until amended; then offer to a local library, archives, or historical society.
d.	House and Senate Journals	Retain in office until superseded; then offer to a local library, archives, or historical society.

2. Managing Elections

|------|--|------------------|

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
3.02	Aerial Photographs. These records provide a photographic record of the municipality's surface characteristics. Aerial views of roads, bridges, bodies of water, and other county structures and topography are recorded in photographs that are used in planning, economic development, regulation, and other core functions of municipal government.	PERMANENT
3.03	Street, Bridge, or Other Municipal Construction and Maintenance Project Files. These records document day-to-day activities on a street, or bridge, or other municipal construction project site. The files note such information as the name of the contractor(s), project personnel, project name and number, weather condition, tests and test results, results of soil and structural component tests, progress reports, and cost estimates. They may also contain permit information, vendor applications, reports, and correspondence. <u>Disposition:</u>	
	a. Results of soil and structural component tests	Retain for life of street or bridge.
	b. All other records	Retain 10 years.
3.04	Street Project Plans, Specifications, Maps, Plats, and Photographs. These records provide core documentation of the construction and improvement of municipal streets. Information in them includes overall project plans and specifications, photographs, and maps or drawings.	PERMANENT
3.05	Bridge Project Plans, Specifications, Maps, Plats, and Photographs. These records provide core documentation of the construction and improvement of municipal bridges. The plans or drawings document the bridge's location and structural details, materials used in construction, and flood levels. Information in them includes overall project plans and specifications, photographs, and maps or drawings.	
	a. Records of bridges of significant historical interest (agency staff may wish to consult the state Department of Transportation, the Alabama Historical Commission, or the county historical society in evaluating the historical significance of local bridges)	

<u>No.</u>	<u>Record Title</u>	<u>Disposition</u>
3.05	<u>Disposition:</u> PERMANENT. Retain for life of bridge; then offer to a local library, archives, or historical society under the terms of a local government records deposit agreement.	
b.	Records of other bridges	Retain for life of bridge.
<u>Note:</u>	For routine street and bridge operations records (accounting and purchasing records; grants, bids and contracts; personnel and training records; work orders, operations logs, telephone/radio logs), follow the disposition statements for such records in the “Administering Internal Operations” subfunctions (no.’s 17-20).	
3.06	Other Municipal Construction Project Plans, Specifications, Maps, Plats, and Photographs. These records provide core documentation of the construction and improvement of other municipal constructions intended for public use that are not streets, bridges, or municipal administrative buildings (parks, cemeteries, parking lots or garages, archives or museums, etc.). Plans or drawings document the facility’s location and structural details, as well as materials used in construction. Information in these records may include overall project plans and specifications, photographs, and maps or drawings.	
a.	Records of constructions or facilities of significant historical interest (agency staff may wish to consult the Alabama Historical Commission or the county historical society in evaluating the historical significance of local constructions or facilities).	
<u>Disposition:</u>	PERMANENT. Retain for life of facility; then offer to a local library, archives, or historical society under the terms of a local government records deposit agreement.	
b.	Records of other constructions or facilities	Retain for life of construction or facility.
<u>Note:</u>	For routine construction project operations records (accounting and purchasing records; grants, bids and contracts; personnel and training records; work orders, operations logs, telephone/radio logs), follow the disposition statements for such records in the “Administering Internal Operations” subfunctions (no.’s 17-20).

Requirement and Recommendations for Implementing the Municipal Records Disposition Authority

Requirement

Under the Code of Alabama 1975, Section 41-13-23, “no county, municipal, or other local government official, shall cause any . . . record to be destroyed or otherwise disposed of without first obtaining the approval of the local government records commission.” This RDA constitutes authorization by the Local Government Records Commission to dispose of records as stipulated, with the condition that the responsible official must submit a Local Government Services Destruction Notice to the ADAH Government Records Division to document the destruction. The ADAH, which serves as the commission’s staff, retains local records destruction documentation as a permanent record. (For more information, see the ADAH procedural leaflet *Records Destruction Procedures for Alabama Local Governments*.)

Recommendations

In addition to authorizing a procedure for legally destroying temporary municipal records, the Local Government Records Commission urges the municipality to establish a quality record-keeping program that will meet its legal and public service needs. Such a program should include the following activities:

The municipality should designate a records officer who will be responsible for: ensuring the regular implementation of this RDA, maintaining records in compliance with national and state standards, and coordinating the destruction of disposable records.

Permanent records in the municipality’s custody should be maintained under proper intellectual control and in an environment that will ensure their physical order and preservation. In addition to records appraised as permanent in the RDA, the Local Government Records Commission has directed that any record created prior to 1900 shall be regarded as permanent.

Destruction of temporary records, as authorized in the RDA, should occur agency-wide on a regular basis—for example, after the successful completion of an audit, at the end of an administration, or at the end of a fiscal year. Despite the RDA’s provisions, no record should be destroyed that is necessary to comply with requirements of the state Sunset Act, audit requirements, or any legal notice or subpoena. When records series are combined, the combined record should be maintained for the longest retention period applicable to the original series that were combined.

The municipality should maintain full documentation of any computerized record-keeping system it employs. It should develop procedures for: (1) backing up all permanent records held in electronic format; (2) storing a back-up copy off-site; and (3) migrating all permanent records when the system is upgraded or replaced. If the municipality chooses to maintain a record solely in electronic format, it should employ an electronic records management system that is capable of tying retention and disposition instructions to records in the system and of purging temporary records when their retention period expires. The municipality is committed to funding any system

upgrades and migration strategies necessary to ensure the record's preservation and accessibility for the period legally required.

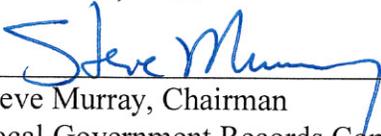

Microforms of permanent records should conform to quality standards set by the American National Standards Institute (ANSI) and the Association for Image and Information Management (AIIM). Under the Code of Alabama 1975, Sections 41-13-40 through -44, microfilm of public records, "when duly authenticated by the custodian thereof, shall have the same force and effect at law as the original record. . . ." No microfilmed record may be legally destroyed "until the microfilm copy has been processed and checked with the original for accuracy." Government Services Division staff may examine agency microfilm for compliance prior to destruction of the original records.

Electronic mail may contain permanent, temporary, or transitory record information. Although e-mail records can be printed out, filed, and retained according to the RDA's requirements, the municipality should preferably employ an electronic records management system capable of sorting e-mail into folders and archiving messages having long-term value.

The municipality should notify the ADAH Government Services Division if a new records officer is appointed or if other significant changes occur in records storage conditions or records management procedures. It may also contact the division to request revision of this RDA. Normally, RDA revisions will be submitted to the Local Government Records Commission every two years. ADAH Government Services Division staff will notify the county commission of any records commission-approved changes in record-keeping requirements that apply to county commissions on a statewide basis.

Staff of the Local Government Records Commission may examine the condition of permanent records in the municipality's custody and inspect records destruction documentation. Government Services Division archivists are available to instruct municipal staff in RDA implementation or otherwise assist the municipality in implementing its records management program.

The Local Government Records Commission adopted this Records Disposition Authority on October 21, 2015.
